**Key for reading cross table results:** Example 1: "-W23" means, in that round, the player lost (-) (+ means a win), playing white (W), against the player who finished in 23rd place on these standings (23). Example 2: "'=B21" means, in that round, the player got a draw (=), playing black (B), against the player who finished in 21st place on these standings (21). +BYE means the player received a bye point because there was an odd number of players playing in that round. "--" means the player withdrew from the tournament before that round started.
