LEARN AND PLAY WITH OTHER GIRLS

All girls, aged 18 and under, are welcome to come and play, even if you have no chess experience. Students can play games with other girls, have lessons from experienced players, and participate in tournaments while building up the chess community.

GIRLS ONLY

We strive to encourage all students who enjoy chess to play and have fun, however we understand the issues that can be faced by female students who may find themselves discouraged or alone in the chess community. This club serves to give girls a place where they can practice chess, meet other girls who play chess, and see themselves represented in the community

COST

A \$1-\$3 donation is suggested but not required
